Axel Jamal – CV

Design Engineer + AI Creative Technologist · Brighton, UK

hello@marea-dvipa.uk · GitHub · LinkedIn · Portfolio

Profile

Design engineer and AI creative technologist who designs in Claude Design, Figma and builds in React, Vue and JavaScript. I use Claude Code to go from idea to working product fast, guided by specs, tests, Apple's Human Interface Guidelines and WCAG 2.2 AA.

My current project, Marea Dvīpa, brings original batik motifs, generative pattern design and original music together in one installable web app. Before tech, I spent six years in hospitality, marketing and PR, leading teams and growing revenue, which taught me to design for the whole customer journey.

Selected projects

Marea Dvīpa | Personal project | 2026 – Present *React, Vite, Canvas, Web Audio, PWA, Claude Code*

- Built an installable, offline studio in two rooms around my own Dua Pulau and Ntina motifs
- Pattern Studio rebuilds 10 batik repeats and 5 Fibonacci flows live, with an Albers colour test and a stencil check
- Media Lab shows step by step how each motif was made, scored with Bunga Kaili, my original song for a synthesized Kaili kakula ensemble
- Every sound is made with Web Audio oscillators and noise, with no samples; its interactive 3D welcome film now opens my portfolio
- Live app · Source on GitHub

Bootcamp Connect | Team project | 2026 *Claude Code, JavaScript, Tailwind CSS, Supabase, PWA*

- Owned the design system, accessibility and AI-assisted development for an app where bootcamp graduates join real projects
- Shipped a working alpha with Google sign-in, a ranked feed, AI-powered CV and LinkedIn import, browser tests and CI
- Source on GitHub

Windfall | Working Project | 2026 *Prototype, HTML, CSS, JavaScript*

- Designed a clickable mobile prototype for small hosted suppers built around surplus food, with a trust and safety layer
- Built to click through with stakeholders for a Brighton and Hove pilot

3D product demo | Team project *Vue 3, Vite, Three.js*

- Built a responsive, interactive 3D product scene that runs in any modern browser

Work experience

Team Leader and Duty Manager | The Feathers, Merstham (Stonegate Group) | Mar 2022 – Present

- Raised the venue's online reputation score by 60% by improving the guest experience
- Proposed and promoted a live music programme that grew event-night sales by 40%
- Promoted to team leader within 6 months and selected for the leadership programme

Web Design and Marketing Intern | Virtual Internships, Coffice, Prague (remote) | Sep 2023 – Dec 2023

- Researched design trends and turned them into wireframes, mock-ups and a coded blog template
- Wrote the style guide and documentation so clients could customise it themselves

Front of House Manager and PR | Supawan | Jan 2019 – Dec 2023

- Moved the restaurant onto Deliveroo and Uber Eats, keeping 90% of revenue in April 2020
- Created weekly menu and social media content; helped secure reviews in The Guardian and The Times and coverage from Nigella Lawson
- Lifted the Google rating from 4.1 to 4.5

Front-End Developer (Bootcamp) | edX / Trilogy Education | Dec 2022 – Mar 2023

- Shipped 16 web app projects and led 2 team projects from wireframes to working app

Trainee Manager | IXL Group | Aug 2017 – Sep 2018

- Face-to-face sales and brand campaigns for clients including UNICEF

Skills

Area	Skills
Design	Graphic Design, Claude Design, Figma, design systems, wireframes and prototypes, style guides, Apple Human Interface Guidelines
Front end	React Native and Web, Vue, JavaScript, TypeScript, HTML, CSS and Tailwind, Vite, PWAs
Creative tech	Three.js, Canvas, Web Audio, generative pattern design, sound and music
AI	Claude Code, MCP, spec-first AI-assisted development
Back end and quality	Node.js, Supabase, Cloudflare, Playwright, testing, CI, accessibility (WCAG 2.2 AA), GitHub
Business	Business Development, Team leadership, real and digital customer experience, marketing and PR, social media content
